Tamil Selvan K

Chennai, Tamil Nadu | +91 9962159795 | tamilselvanaug05@gmail.com | linkedin.com/in/tamil-selvan-k-5b0507288 | github.com/TamilSelvan177

EDUCATION

B.Tech CSE with Specialization in AI & ML
SRM Institute of Science and Technology, Ramapuram, Chennai
CGPA: 9.50/10.0 | 2023 – 2027

Class XII – Chettinad Vidyashram | 77.6% | 2023

Class X – Chettinad Vidyashram | 85.2% | 2021

SKILLS

Programming Languages: Java, Python, SQL
Databases: MySQL, SQL Server
Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, JDBC, Machine Learning Basics
Libraries: Pandas, NumPy, Matplotlib
Frameworks & Technologies: Spring Boot, React.js, REST APIs
Tools: Git, GitHub, Postman, Eclipse/STS, VS Code

PROJECTS

Predictive Analytics for Cardiac Risk Assessment using Multivariate Health Data
Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib, SHAP

- Developed a machine learning-based cardiac risk prediction system using 1000+ patient records.
- Implemented and compared classification algorithms including Logistic Regression, Decision Tree, Random Forest, and SVM, achieving up to 98% accuracy.
- Utilized SHAP for model interpretability to identify key risk factors influencing predictions.

Airline Reservation Management System
Technologies: Core Java, JDBC, SQL Server

- Developed a console-based airline reservation system for passenger booking, ticket cancellation, and flight record management.
- Implemented OOP concepts including abstraction, inheritance, encapsulation, and polymorphism for modular application design.
- Integrated SQL Server using JDBC to manage passenger information, seat allocation, and flight details.

Smart Expense & Goal Planner
Technologies: Spring Boot, React.js, MySQL, REST API, Bootstrap, Recharts

- Developed a full-stack expense management application with user authentication and CRUD operations.
- Implemented budget management, savings goal tracking, dashboard analytics, and financial reports.
- Integrated MySQL, REST APIs, and Recharts for data management and interactive visualizations.

EXPERIENCE

FocusR | Intern December 2024, Chennai, India

- Practiced Data Structures and Algorithms (DSA) to improve problem-solving and code optimization skills.
- Worked with SQL for data retrieval, filtering, sorting, and database operations.
- Enhanced debugging, analytical thinking, and software development fundamentals through practical assignments.

CERTIFICATIONS & ACHIEVEMENTS

Artificial Intelligence Beginners Guide | Completed April 2025
Java Programming | Completed October 2024
Fundamentals of Database: What is SQL? | Completed April 2025

Research Day 2026 – SRM Institute of Science and Technology
Presented a research paper on Predictive Analytics for Cardiac Risk Assessment Using Multivariate Health Data.

DCCES'26 International Conference – Rajalakshmi Institute of Technology
Presented research findings on machine learning-based cardiac risk prediction at the 1st Doctoral Conference on Computational & Engineering Sciences (DCCES'26).
